SPRING

2010

Season: SPRING 2010

Aimed both at readers who want to read this work for the first time and others who have decided to re-read them with the added appeal of illustration. Always with the guarantee of an adaptation that remains true to the original. Traumatized by the death of his mother, Victor Frankenstein becomes obsessed with the study of natural science and medicine and the idea of creating a more intelligent human being, possessing perfect health and long life. During his time at university he delves deep into cemeteries, opens tombs and studies the corpses to acquire the knowledge that will allow him to give life to a being created out of lifeless matter. But the creature turns out deformed and monstrous, and Victor abandons it to its fate.
